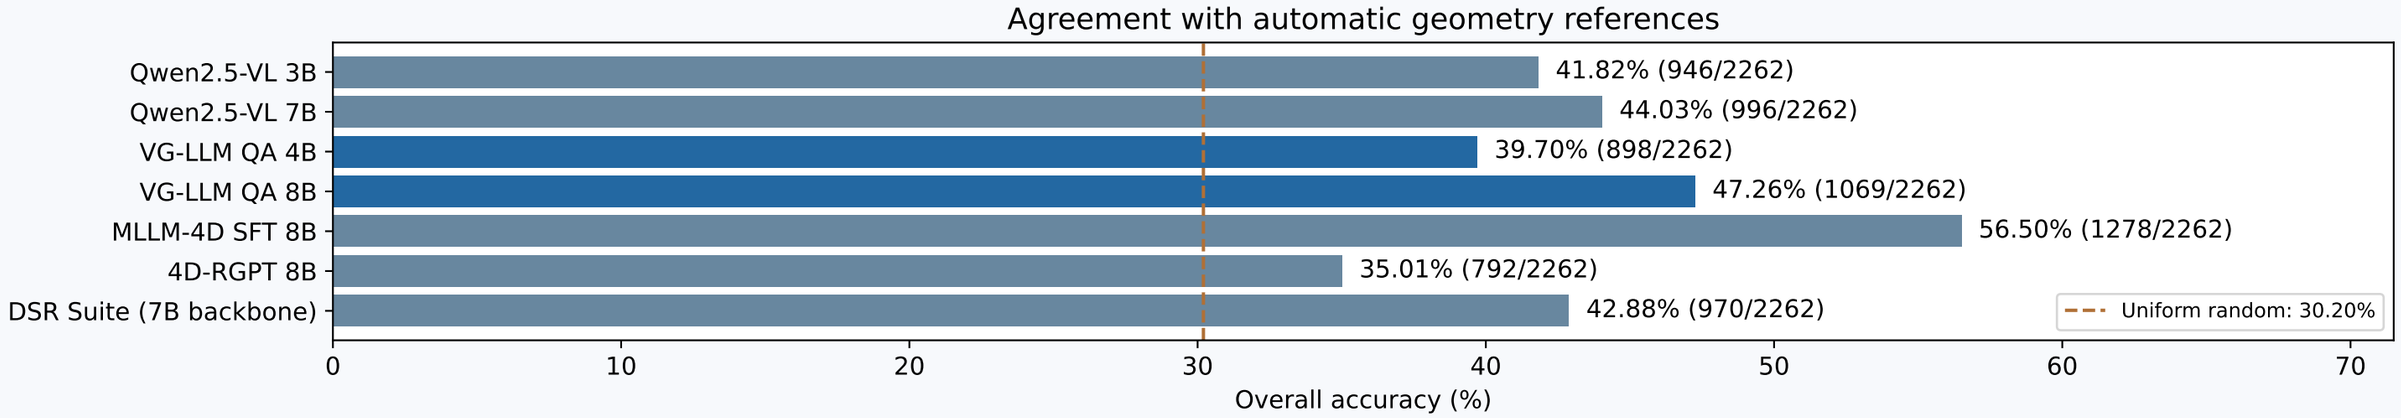
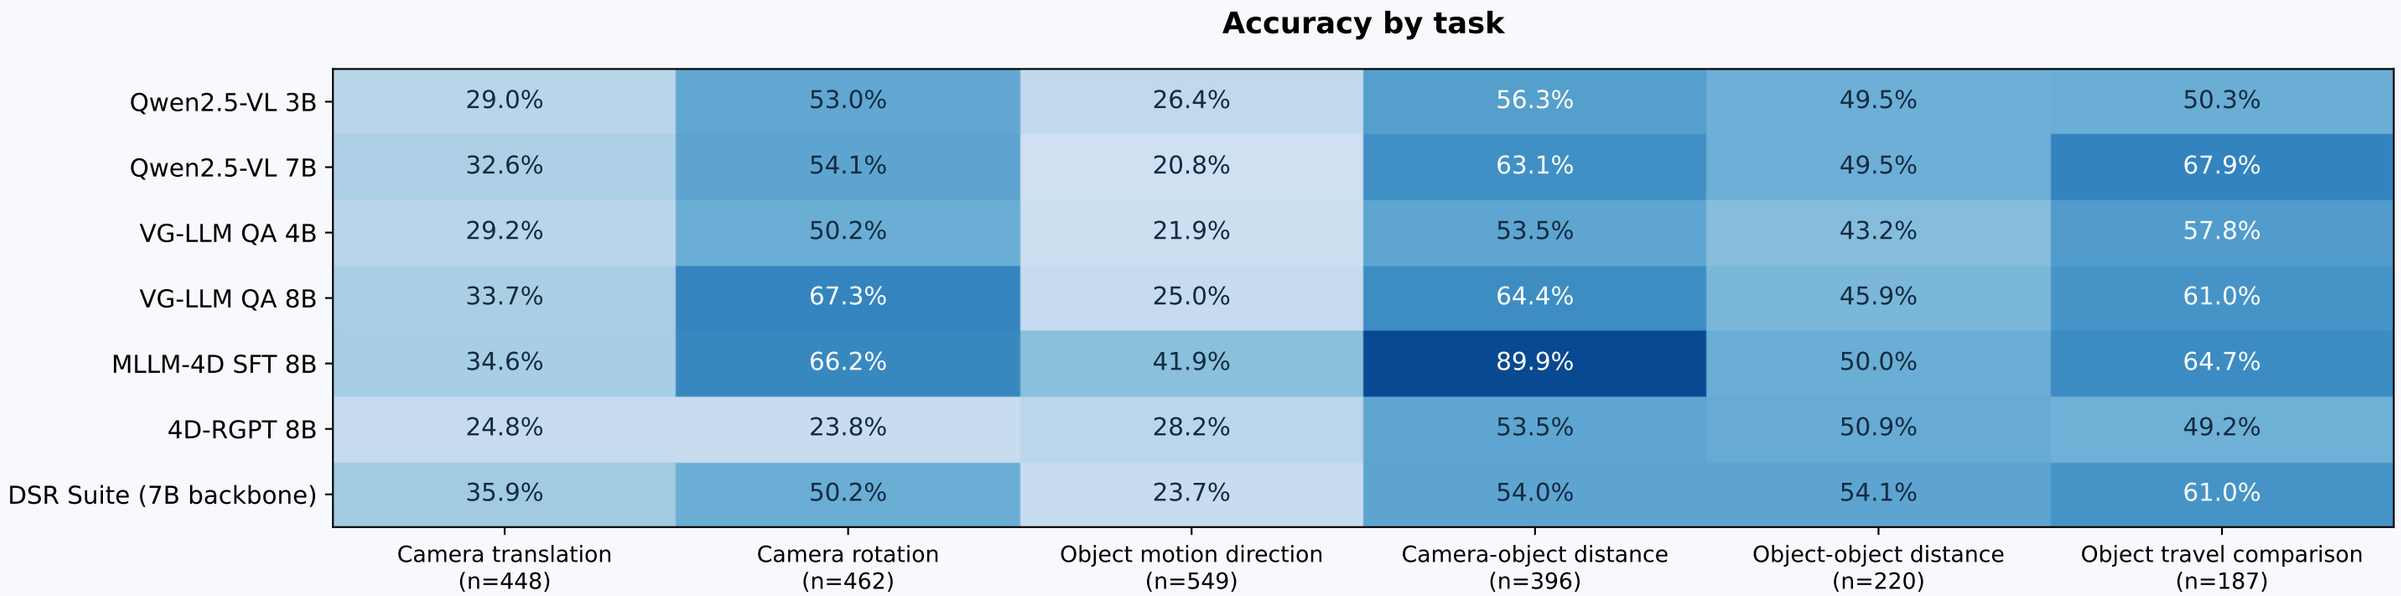
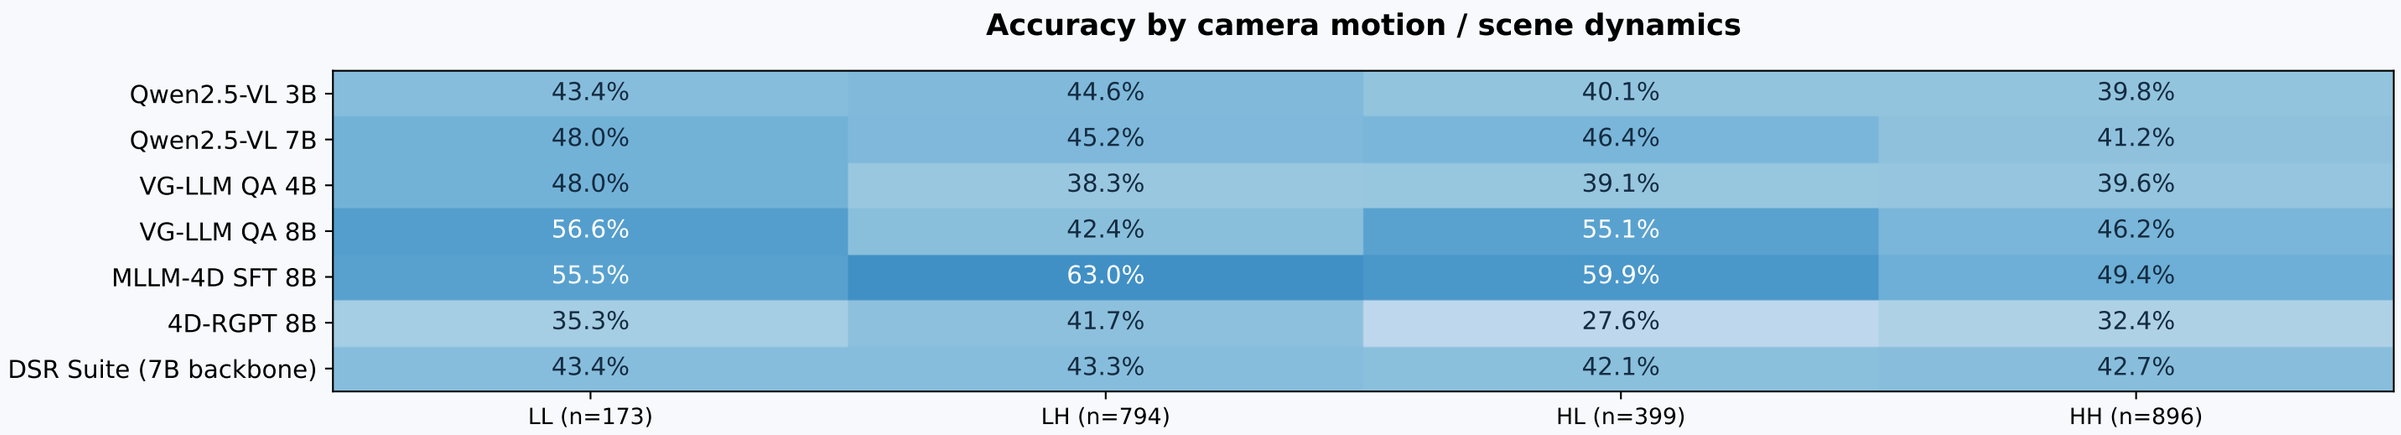
Temporal Geometry: QA-filtered Evaluation

2262 QA / 1247 videos / 6 tasks / same 9 marked RGB frames per question







Provisional automatic labels; no human GT verification. Invalid answers count as wrong.
Native per-model image preprocessing; adapted 9-image protocol, not paper benchmark reproduction.
Keep only from Qwen3.8 QA-conditioned audit; exclude/review removed. LL/LH/HL/HH = camera motion / scene dynamics.
